

WP5 – Campaigns run by Deaf young people

Partner: EUDY in Cooperation with Turkoois
November 2025

Project No.: 2023-1-AT01-KA220-YOU-000161249

Campaign theme: Multipliers for the Future	2
Creation of 3 VLOGS	3

Funded by the European Union. However, the views and opinions expressed are solely those of the author(s) and do not necessarily reflect the views of the European Union or the European Agency for Education and Culture (EACEA). Neither the European Union nor the EACEA accept any responsibility for them.

Campaign theme: Multipliers for the Future

Campaign theme: Multipliers for the Future

Deaf youth from Norway, the Netherlands, Belgium, and France gathered at Ål Folkehøyskole og Kurscenter for Døve, which is located in the mountains, a 3-hour train ride from Oslo, to learn, share, and take action for a greener future.

During our time there, we experienced varied weather; northern lights, snow, sunshine, and rain, which suited the theme of the camp perfectly.

This camp empowered Deaf young people to become climate activists through accessible workshops, creative campaigns, and hands-on experiences in sustainability.

Participants: 29, including facilitators

Dates: 18–26 October 2025

Vlog 1

The video 'Earth' is a metaphor for how we mistreat our Earth.

At the beginning of the video everything is still okay. At the end of the video the mood is dystopian.

Vlog 2

"ASC-Fashion"

This video is about our consumption behavior. We all have a full wardrobe. Around 50% of it we wear rarely or not at all. The majority of 'fast fashion' clothing is produced under the most difficult conditions. In addition, there is a high CO2 emissions due to transportation. How about if we shared our clothing?

Vlog 3

"Tear Drop"

This video addresses water waste in the Western world.

We take long showers, just let the water run while we talk on the phone, and so on. We are not aware that there are only very limited drinking water reserves. The video makes a perspective shift. Suddenly, there is no more water in the West either, every household is limited. We ourselves never experience need, which is already reality in other countries.
